6–17 JUNE 2027 · ALTO BENI, BOLIVIA

23rd International Course

on Dynamic Agroforestry Systems

Ten days in the field, learning Dynamic Agroforestry where it has been practised for decades. Organised by ECOTOP in cooperation with FiBL.

WHEN	DURATION	LANGUAGE	FEE
6–17 June 2027	**10 days**	**English**	**EUR 2,600**
Arrival in La Paz on 5 June	In Alto Beni, plus travel days		Board, lodging, transport from La Paz

THE COURSE

PART 1 **Sara Ana Research Centre**
See FiBL's SysCom long-term trial: agroforestry and monoculture cocoa compared side by side since 2008.

PART 2 **ECOTOP headquarters, Sapecho**
Hands-on work in Bolivia's oldest DAF systems, managed for more than three decades.

- **Many farm visits:** DAF in practice, from young plots to mature systems
- Design, establish, prune and manage agroforestry plots
- Exchange with producers and the El Ceibo cooperative

DATES AND TRAVEL

5 June	Arrival in La Paz (El Alto airport)
6 June	Journey to Alto Beni, about 7 hours by road
7–16 June	Course: Sara Ana, then ECOTOP in Sapecho
17 June	Return to La Paz
18 June	Optional, extra cost: El Ceibo chocolate factory

For technical staff and facilitators, and for sourcing and sustainability teams that want supply chains to hold up as the climate changes and soils degrade. International travel and visas are paid by participants.
